

Under "Kisan Bhagidari Prathmikta Hamari Abhiyan" a kisan gosthi was organised at ICAR-CIRG. Lectures on biofortification, nutritive importance of coarse grains and significance of crop diversification were delivered. Conservation of goat breeds of India was discussed by the scientists. Ongoing NABARD schemes and how to develop linkages with credit institutions were appraised by the DDM NABARD Mathura. Goat medicine kits were also distributed to more than hundred women goat farmers on this occasion.
